A department-level prior authorization operations system for healthcare teams that need a more consistent way to manage intake, submission, tracking, follow-up, quality review, denial prevention, appeals, escalation, staff workflow, and management visibility.

Instead of building every tracker, SOP, audit tool, dashboard, script, and training resource separately, this system brings the core operational pieces together into one organized department workflow.

Includes 27 total tools and resources:

- Everything included in the Clinic Team Edition
- Healthcare KPI Dashboard Pro
- Prior Authorization Appeal Tracker Upgraded
- Prior Authorization Workflow Audit Toolkit
- Prior Authorization Intake Quality Control Toolkit
- Prior Authorization Denial Appeal Toolkit
- Prior Authorization Denials Guide
- Peer-to-Peer Review Preparation Toolkit
- Prior Authorization Follow-Up Decision Toolkit
- Prior Authorization Missing Documentation Template Pack
- Prior Authorization Difficult Calls Toolkit
- Denial Prevention Intake Audit Tool + Guide
- Medical Office Workflow Tracker Upgraded

Also included:

- Department Start Here / Implementation Guide
- Department rollout and operating rhythm guidance
- Department Team Use / License Terms
- Organized delivery structure

Designed for **one department within one legal organization, up to 50 internal users across up to 5 locations.**

This is an administrative workflow resource. Payer requirements, submission routes, documentation standards, policies, turnaround times, and organizational procedures can change and should always be verified before use.
